Carve Every Detail in Exceptional Visual

Superior image quality and eye protection are delivered by a 4K UI display with advanced anti-glare technology. Zero-bonding technology (0.8mm air gap) effectively reduces air refraction and parallax for enhanced visual clarity.

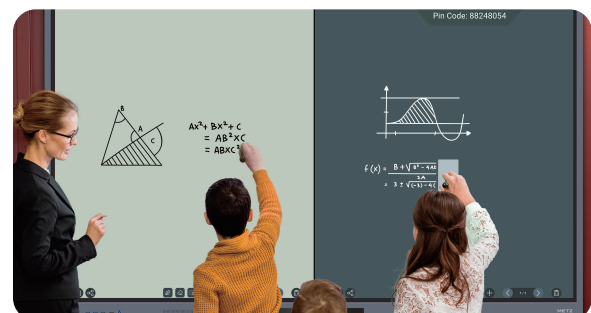

Smooth and Intuitive Writing Experience

1mm writing height and 8ms responsive time truly captures your every thought, delivering a smooth and familiar pen-and-paper-like writing experience. The built-in whiteboard comes with a plethora of useful features and tools, which inspire every participant via any annotation.

Wireless Screen Transmission with Low Latency

The interactive display can connect to up to 4 devices simultaneously, making every collaboration a platform for innovation. Interaction between the IFPD and the device is easily achieved once the connection is complete.

Efficiency Enhancement via Built-in Whiteboard Tools

The user-friendly whiteboard encourages active participation and inspire creativity. One screen can be split into two and used at the same time without interfering with each other, allowing for real idea collision and collaboration.
