Exceptional Immersive Experience

Designed with dual 15W powerful speakers and METZ noise-reduction technology, every participant is heard clearly, even in the large space. The K Series' low latency preserves its 4K resolution, maintaining critical detail while enhancing the visual experience. The wide 178° viewing angle of the anti-glare cover glass is ideal for viewing from all angles.

Collaborate and Communicate with Fast Screen Share

Screen-share wirelessly from up to 4 devices simultaneously. The QR Code scanning and sharing makes accessing information even more efficient. METZ interactive display inspires creativity and innovation.

Real Paper-like Writing Texture

By combining 1mm writing height and 8ms responsive time with METZ stylus, users are able to build an engaging workspace by generating hand-draw designs, collating ideas, and more, delivering the most intuitive and smooth fingertip touch.

Manipulate the Software You Know

Powered by Android, METZ displays easily connect to external devices so teachers can use the software they prefer. For Windows users, an optional slot-in PC module provides a powerful yet discrete solution to improved usability and device upgrades.
