EXCELLENT USABILITY

OUTSTANDING PRODUCTIVITY

INTUITIVE COLOUR TOUCH SCREEN

This intuitive tiltable 3.5" QVGA colour touch screen makes operation effortless through direct touch and swipe gestures while high operability is maintained.

QUICK RECOVERY FROM SLEEP MODE

Recovering from sleep mode is as fast and easy as entering into sleep mode. To get your device up and running again from sleep mode, simply touch the screen or any buttons on the control panel.

CUSTOMISING FAVORITE SETTINGS

Improve productivity by registering frequently used settings into shortcut buttons on your Home screen. You can easily add on, delete, re-position or even rename these buttons to your convenience. Rest assured that your shortcuts will remain in memory even after power-off.

Extraordinary business value within your reach

With productivity boosting features like printing speed of up to 25ppm in colour and monochrome, network sharing, colour scanning, mobile connectivity, secure printing, additional security features and fax management with hassle-free device maintenance, the imageRUNNER C1325 adds a touch of brilliance to your everyday business workflow. Now, you can deliver more value to your customers while keeping costs low.
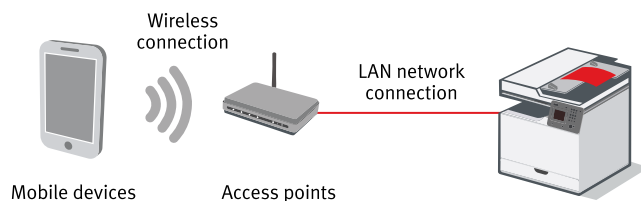

PRODUCTIVITY
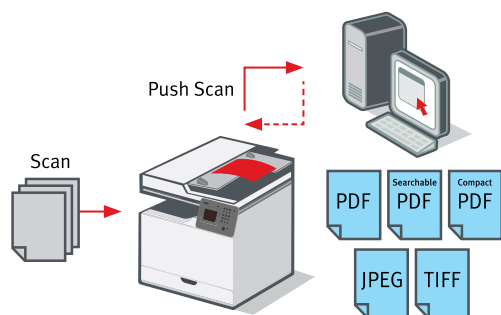

CONVENIENT COLOUR SCANNING, EXTENSIVE FILE FORMATS

Digitise your originals conveniently using scan to email or network folder without accessing your PC into various format which include PDF, Compact PDF, Searchable PDF, JPEG and TIFF.
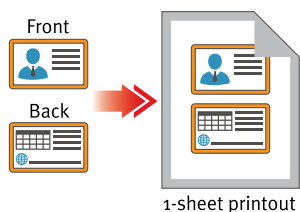

ID CARD COPY

Copying ID card is simpler than ever before! With a one-time operation, you can copy both sides of the ID card onto the same page of a paper without the need to manually reload the paper.

MOBILE CONNECTIVITY

Experience simple mobile print functionality with features to help mobile device users print jobs from their devices. It supports a wide variety of file formats including image, photo, PDF files and web pages.

Mobile users can also use the Canon Mobile Scanning for Business to scan and save data on their mobile devices, send it as e-mail attachments to themselves.

With Canon Mobile Solutions*, you can now scan, manage, and print photos, web pages, documents, and more from iOS or Android™ terminal, all with the imageRUNNER C1325.

*Canon Mobile Printing and Canon Mobile Scanning apps may be downloaded on iOS or Android mobile devices.

SEARCH DOCUMENTS EFFORTLESSLY

Scan your documents in Searchable PDF format and effortlessly perform text searches on document contents. To enjoy greater productivity, you can now easily copy and paste everything to other file formats.

# PRODUCTIVITY

SCAN TO USB, PRINT FROM USB
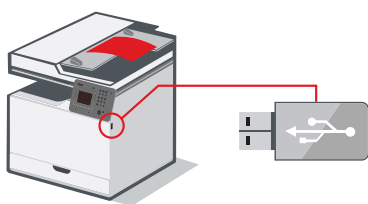

Scan documents directly from your imageRUNNER C1325 directly to a USB device without the need of a computer. You can choose to save your documents into various file formats including PDF, JPEG or TIFF.

Print your PDF*, JPEG or TIFF documents saved in a USB device without the need of a computer. Simply plug in your USB, select your file and print!

*Requires PS Print Kit or USB Direct Print(for PDF) to print PDF documents.

Image Combination

IMAGE COMBINATION

Combine multiple pages into one single page. Save cost by printing your drafts using image combination for a final review. You can even specify the page layout and binding position with just few taps on the screen.

4 separate sheets   1-sheet printout
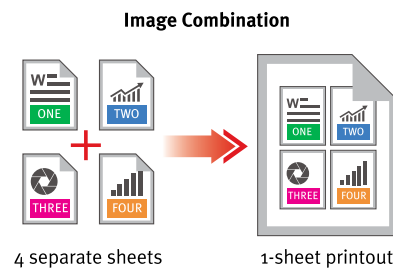

SECURITY

FUNCTION LEVEL LOGIN

Prevent data leakage by restricting send function to authorised users without affecting the print and copy features of the device. Administrator is able to restrict unauthorised sending in a controlled environment.

DOCUMENT SECURITY

With the optional Send PDF Security feature, you can be assured that any information in your PDF document is secured.

Encrypted PDF: You can set a password and the level of security by encrypting a PDF.

PDF with Digital Signature: Generate a device signature key and certificate that identifies the device where a document was scanned. The certificate is appended when an original is scanned and converted into a PDF file.
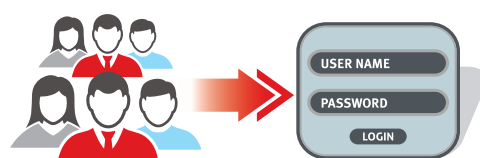

Department ID Page Total			
Page Total			

Register New Department   Clear All Counts

Department ID	Page Total/Page Restriction		
	Total Prints	Black & White Copy	Black & White Print
0123456	750	250	500
0001	500/800	300/500	200/300
0002	650/1000	450/650	190/350
1639	360/800	250/400	210/400

DEPARTMENT ID MANAGEMENT

Specify access privileges for different users by registering a Department ID for different workgroups or departments. When enabled, this feature requires users to login with their respective IDs and they are only allowed to access the pre-specified device features. For easy administration, usage information by each department can be retrieved at a click of a button.

SECURE PRINT

Protect the confidentiality of your information by setting a PIN code to a document when printing from a computer. The document sent to print will be held in the memory of the device. It will only print when the user physically enters the PIN code at the device. This prevents your documents from being left unattended after printing out.

e-MAINTENANCE

With eMaintenance, you can reduce administration burden and increase machine uptime. Now you can manage and control your Canon multifunction devices more efficiently.

TONER ON DEMAND

When toner level are running low, eMaintenance will help place a re-order request directly with the relevant service centre. With its consumables management function to assist with order, you will never run out of toner.

MAXIMISING UP-TIME

The system will contact relevant service centre automatically within business hours when a device fault occurs. It will continue to transmit error messages to the relevant service centre even during non-office hours, as long as the machine is connected.

uniFLOW : PRECISION MANAGEMENT

Clients   uniFLOW Server   Printers
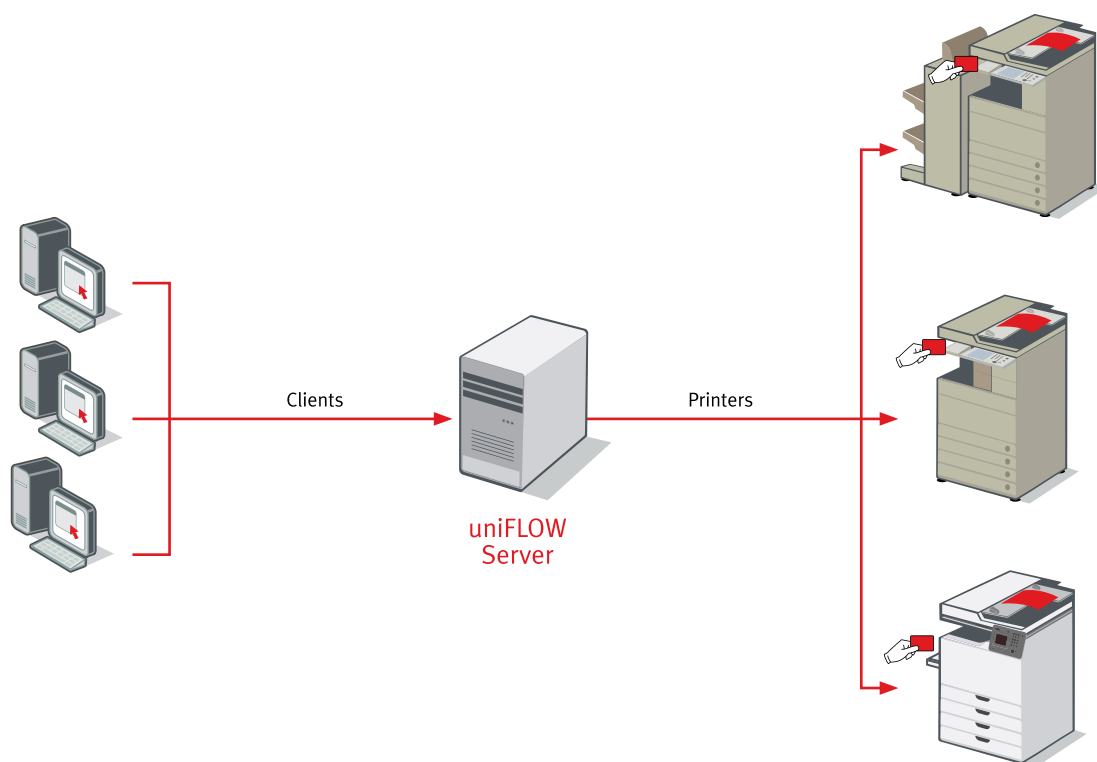

EXACTING SECURITY AND MANAGEMENT

The imageRUNNER C1325, together with uniFLOW, allows for advanced control and precise management with features like device authentication, usage accountability and secure printing solutions.

PRINT MANAGEMENT
You can now track print activities on the device, and generate reports for easy viewing and analysis.

COST ACCOUNTING
Charge printing cost to individuals or assign the expense to respective workgroups or departments without the manual, messy accounting procedures.

AUTHENTICATION PRINTING
Keep documents unprinted until the user login and releases the document from the device. Users will only be able to view their own print jobs upon authentication. This means the user can securely collect confidential documents and eliminate the problem of forgotten printouts in the machine's output tray.

MY-PRINT-ANYWHERE
Pick up your printed document from any multi-function device connected to the uniFLOW server. Simply identify yourself at the device of your convenience!

VALUE ADDED FAX OPERATION
SEND FAXES FROM PC, HASSLE-FREE

With the addition of an optional Fax Board, you can create a fax document on your computer and send it off directly without the need to print out a hardcopy. A great way to save paper and reduce costs.
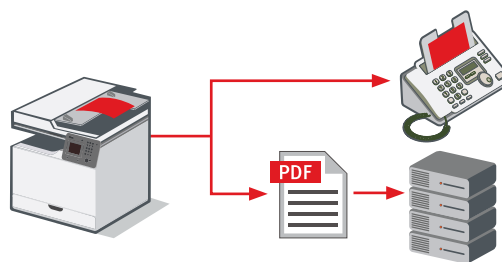

ARCHIVING SENT FAX DOCUMENTS

You can choose to save sent faxes in a pre-set destination to an email address, shared folder or file server. In the event of a fax error, you can easily retrieve the PDF copy of the failed fax without having to search for the originals document and re-send through fax driver.

*Fax is an optional feature.
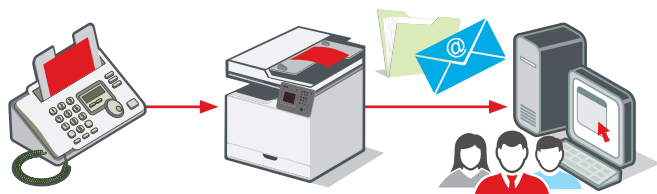

MANAGE RECEIVED FAXES EFFICIENTLY

You can set your device to forward on faxes to an email address, shared folder or file server. All faxes will be converted into PDF format before they are directed to their respective destinations. You will never miss any receiving fax document again.

ENVIRONMENTAL CARE

A SMALLER ENVIRONMENT FOOTPRINT

REDUCE YOUR PAPER USAGE
Print on both sides of the paper for your copies, print jobs or even incoming faxes. You can also choose to shrink multiple pages onto a single sheet of paper. The combination of these two functions allow you to save even more paper when you select them simultaneously - print multiple pages on 1 page, double sided.

SLEEP MODE
Save energy and costs by setting your device to automatically go into Sleep Mode when it is not in use. To come out of it, simply tap the screen or press any key on the operation panel.

USE OF BIOPLASTICS
Bioplastics, made from organic, plant-based raw materials, are recyclable via a waste-to-energy system. It is used in the imageRUNNER C1325 in parts where the user comes into contact with the most, for instance, the control panel keys.
